CROWN

Alpine Grey

Hatted chef Frederico Zanellato of award-winning LuMi Dining, chooses EarthStone engineered stone in his home kitchen because of its functionality and durability. All of our stone is stain, scratch, impact, heat and citric acid resistant to withstand commercial-grade use.

Mount Cemento

Subtle markings of white and grey create a stunning, organic pattern that changes in complexity and beauty with every viewing. Inspired by snowcapped mountains and glacial rivers, this tasteful stone beckons to be touched and lived in.

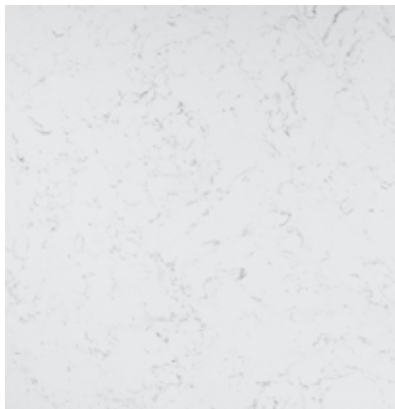

Crema Marfil

A luxurious, textured creamy stone with soft veins of sun-kissed honey, cinnamon, and buttermilk tones, Crema Marfil brings warmth to any space. Perfectly suited to bathrooms seeking a softer, elegant finish that pairs perfectly with chrome, brass or gold fittings.

Lyskamm

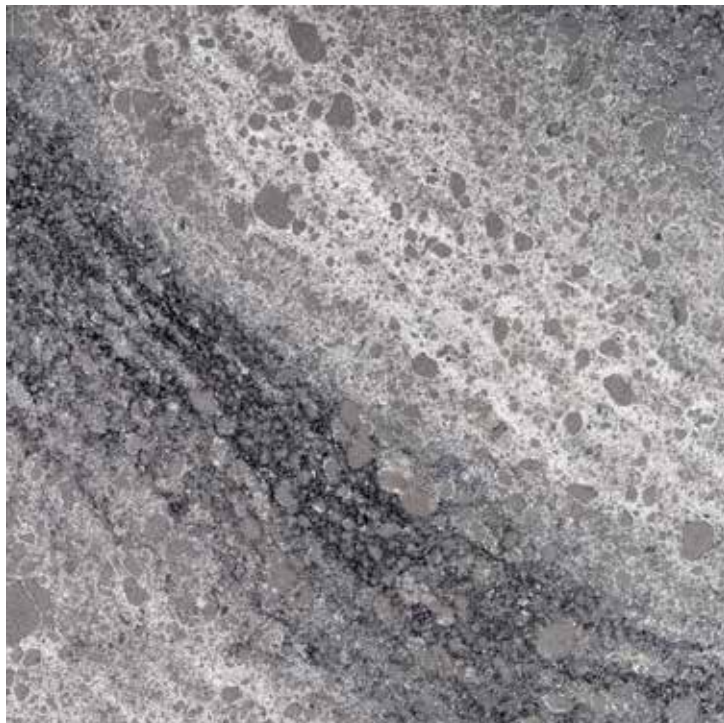

A breathtakingly light, bright, white quartz-like stone with a subtly diffused misty, grey pattern throughout, Lyskamm pays tribute to the heavenly peaks of the eighth highest mountain in the world.

Basalt Cemento

A strikingly beautiful statement stone, with volcanic and smokey tones. Each unique slab beautifully showcases the contrast of light and dark stone features, resulting in a complex yet timeless piece.

Desert Cemento

Sweeping desert sands have inspired this stone which features light, tasteful detail resulting in a softer, sympathetic design aesthetic that can be used for a complete floor to ceiling transformation in any room.

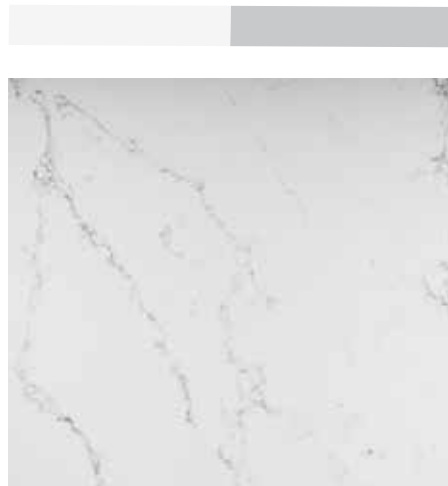

Statumax

Inspired by the marble used for some of the greatest sculptures in the world, Statumax showcases perfection in tone with a velvet touch finish. Elegant, sculptural and suitable for floors, walls, and benchtops throughout your home.

Glacier

Inspired by white capped glaciers with striking lines of marble details throughout. This is a majestic and elegant piece that beautifully captures and reflects light.

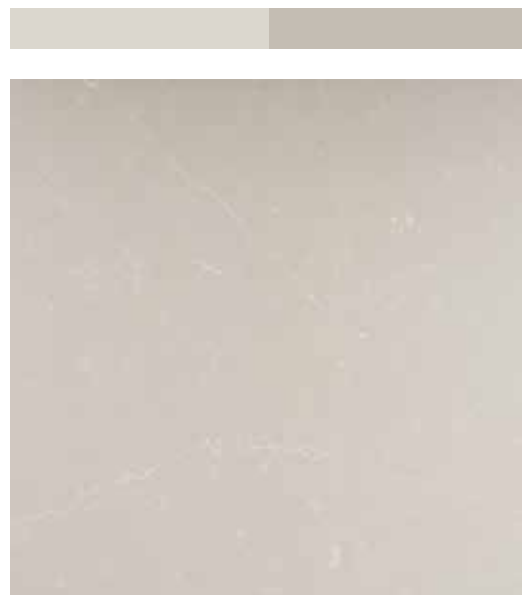

MOSMAN KITCHEN & BATHROOM FEATURING GLACIER

Calacatta Silver

A Neolithic style that remains timeless, Calacatta Silver is luxury, elegance and drama in stone. This beautiful silver grey stone with subtle white vein offers freshness and warmth.

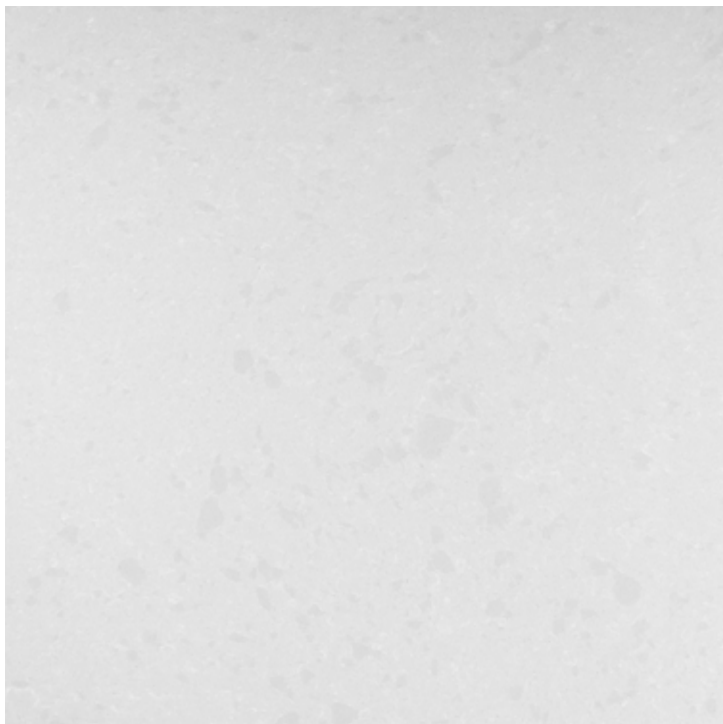

Iceberg White

A breathtakingly light stone with soft grey and white streaks creates a vast glacial feel to Iceberg White. Finer detail makes this stone perfect for smaller spaces or those with minimal light.

Kaolinite

Featuring stunning veins of caramel, taupe and ash set within a neutral, porcelain like background, Kaolinite offers striking elements for those seeking a more traditional marble effect.

Marquina

Elegant and striking, Marquina stands out for its dark landscape with pure white veins that stretch across each slab, like lightning bolts across the night sky. A bold and contemporary finish for those seeking a statement piece in any room.

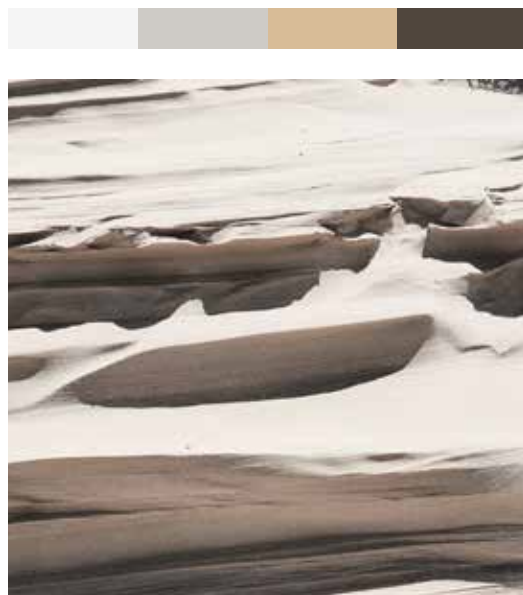

Misterio

Inspired by heavenly mountains, Misterio captures a moment of floating cloud, with soft lines drifting across light, white marble. Subtle, elegant, refined yet detailed enough to create a stunning feature in any room. Stain, scratch, impact and citric acid resistant means you can select even the brightest white tones with confidence.

Crown

A lavish and rich off-white marble with striking rivers of gold, caramel and slate, connected by fine silver veins. Crown celebrates the regal yet natural beauty of marble like no other.

A black and white photograph of a jagged, rocky mountain peak. The mountain has a very steep, craggy face with many vertical fissures and ledges. The sky is filled with dramatic, dark clouds, and a bright light source is visible on the right side, creating a strong contrast and highlighting the mountain's features. The overall mood is dramatic and majestic.
