Product Overview

Surface Bonder S.S.A. provides a seamless, perfectly colour-matched finish to solid surface and composite worktops made from acrylic and polyester blends. With longer working times, it is perfect for today's modern fabrication methods while maintaining the same fast cure time. Surface Bonder S.S.A. has high bond strength so it can stand up to applications subject to dynamic loads such as integral mounted sinks, bowls, laminating and mitring.

Surface Bonder S.S.A. gives you quick, easy and consistent results for a quality assured installation.
